11TH ANNUAL SYMPOSIUM

- The Storage Lesion: Impact on Clinical Practice
- Blood Management in Massively Bleeding Patients
- Fluid Therapy
- Hemostasis
- Management of Anemia
- Thrombosis
- Spanish Consensus Statement on Alternatives to Allogeneic Blood Transfusion—2010 Update
- Breaking News
- Best Posters' Presentation
- Workshops

April 8~9, 2010 *Barcelona, Spain*

*Barcelona International
Convention Center - CCIB*

NATA

About NATA

NATA, the Network for the Advancement of Transfusion Alternatives, was formed in 1998 by a group of world renowned anesthesiologists, intensive care specialists, surgeons, hematologists and transfusion medicine specialists concerned with blood conservation techniques. Their expressed goals were to promote improved use of blood components and transfusion alternatives in everyday clinical practice and to encourage the open exchange of information and scientific data within and between healthcare teams worldwide.

To that end, NATA has developed a number of educational activities, including successful annual symposia in Europe, a North American symposium in San Francisco and four Asian symposia.

NATA's official journal, *Transfusion Alternatives in Transfusion Medicine* (TATM, www.TATMjournal.com), a quarterly peer-reviewed journal dedicated to clinical transfusion practice and transfusion alternatives, was re-launched in 2006 after NATA entered into a publishing partnership with Wiley-Blackwell Publishing, and now offers many new and exciting features for both readers and authors:

- New design and layout
- Online submission via Manuscript Central
- Online Early - Accepted articles available online before print publication
- Online journal available via Wiley InterScience.

A revised version of the NATA textbook, originally published in 2000, is being prepared in collaboration with Wiley-Blackwell Publishing.

NataOnline (www.nataonline.com), the only website dedicated to peer-reviewed coverage in the field of transfusion alternatives, provides its over 16,000 registered users with a weekly review of the literature and free online access to the 2000 edition of the NATA textbook.

Welcome to the 11th Annual NATA Symposium

Dear Colleague:

It is our pleasure to invite you to the 11th Annual NATA Symposium that will take place on April 8-9, 2010, in Barcelona, Spain, the country where NATA organized its first annual symposium ten years ago.

The scientific program will cover a wide range of topics relating to blood transfusion and alternatives that will interest anesthesiologists, intensivists, surgeons, hematologists and transfusion medicine specialists. The annual NATA symposium provides a unique opportunity for constructive exchange across different specialties involved in transfusion medicine.

As part of its educational activities, NATA has decided to offer national organizations the possibility to present their clinical experience. This year, NATA has the privilege to host a session during which an updated version of the Spanish Consensus Statement on Alternatives to Allogeneic Blood Transfusion will be presented.

In line with NATA's mission statement — "Promoting the better use of blood products and transfusion alternatives in everyday clinical practice through a multidisciplinary approach" — the scientific committee has introduced a new feature in this year's program: four practical workshops on clinically relevant topics with a limited number of participants, each repeated twice, will provide an excellent opportunity for clinical discussions and exchange of experience.

During the Breaking News session, the results of major clinical trials will be presented. Make sure not to miss this outstanding part of the scientific program!

Take the opportunity to participate in this multidisciplinary meeting while enjoying the numerous activities afforded by Barcelona.

We look forward to meeting you in spring for this stimulating event.

Yours sincerely,

Professor Philippe Van der Linden
NATA Chair
Brussels, Belgium

Dr. Elvira Bisbe
Co-chair, Organizing Committee
Barcelona, Spain

THURSDAY, APRIL 8, 2010

REGISTRATION FEE (INCLUDING TAXES*)

| REGISTRATION TYPE | BEFORE February 20, 2010 | AFTER February 20, 2010 |
|-----------------------------------------------------------------------|-----------------------------|----------------------------|
| <input type="checkbox"/> NATA Non-Member | € 350.00 | € 430.00 |
| <input type="checkbox"/> NATA Member | € 240.00 | € 320.00 |
| <input type="checkbox"/> NATA Non-Member, Eastern Country** | € 200.00 | € 280.00 |
| <input type="checkbox"/> NATA Member, Eastern Country** | € 90.00 | € 170.00 |
| <input type="checkbox"/> Students (on written confirmation of status) | € 100.00 | € 100.00 |
| <input type="checkbox"/> One-day registration | € 230.00 | € 230.00 |

Please Specify: April 8 April 9

* The fee includes the right to attend all sessions, abstract book and coffee breaks (additional meals and accommodation are not included), as well as a three-month online trial subscription to TATM. NATA members are entitled to participate in the NATA General Assembly. One-year print and online subscription to TATM is included in the NATA membership fee of Euro 110.00 (to join NATA or renew your membership, please go to www.TATMjournal.com, Membership section).

** Eastern Europe countries: Albania, Bosnia and Herzegovina, Bulgaria, Croatia, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Macedonia, Poland, Romania, Slovakia, Slovenia, Yugoslavia (Serbia and Montenegro).

Cancellation policy:

- cancellation before March 8, 2010, 90% refund of registration fee

- cancellation after March 8, 2010, no refund

If you register as a NATA member,
please specify your member ID number:

TOTAL amount to be paid: €

PAYMENT

I am enclosing a check in Euros made out to MedEd Global Solutions.
(The check must not be in another currency.)

I am paying by credit card: Visa Mastercard Eurocard
